

✧ Fabric Requirements & Cutting ✧

4-5 Fat Eighths of print fabric (or scraps of fabric), cut:

- 3 - 2" x 21" strips for the tea towel (one each of three different prints)
- 1 - 8" x 8" square of one print for the hot pad backing
- 1 - 2" x 10" strip for the optional hangers
- 112 - 2" squares (at least)

2 Fat Quarter of print fabric for the oven mitt lining and binding

Use the template provided to cut two oven mitt linings as shown below

Scraps of Cotton Batting or Insul-Bright and a store bought tea towel

✧ Oven Mitt Assembly ✧

All seams are $\frac{1}{4}$ " unless otherwise noted.

- 1** Sew 2" squares together as shown to make two $9\frac{1}{2}$ " x $12\frac{1}{2}$ " rectangles.

- 4** Cut out another two oven mitt shapes using the fat quarter of print fabric for the lining.

- 2** Layer the pieced $9\frac{1}{2}$ " x $12\frac{1}{2}$ " rectangles on top of two layers of cotton batting or one layer of Insul-Bright and quilt as desired. Use the provided template to make two oven mitt shapes. (Note: you will need one shape in each direction as shown).

- 5** Match the exterior and lining pieces of the oven mitt. Sew around the sides and top of each piece and then turn the exterior piece so that the right side is out. Insert the lining piece inside of the oven mitt so that the wrong sides are touching. Bind the opening so that the raw edges are covered.

- 3** Press the 2" x 10" rectangle of print fabric in half and then open up the strip and press the raw edges towards the centre. Using your sewing machine stitch $\frac{1}{8}$ " in from each side to make the optional hangers. Cut the strip in half to make two hanger loops. Attach one loop to an oven mitt shape using a $\frac{1}{8}$ " seam allowance.

✧ Hot Pad Assembly ✧

1 Sew 2" squares together to make a 6½" x 6½" square. Layer the pieced square with two pieces of cotton batting or one piece of Insul-Bright and the 8" x 8" square of backing fabric. Quilt as desired.

2 Use a small bowl or a glass to draw rounded corners on the quilted squares. Trim. Attach a hanging loop (optional) and then bind using your favourite method.

TIP: Cut the binding strips on the bias, ie a 45° angle, to make it easier to bind around the curved edges.

✧ Tea Towel Assembly ✧

1 Sew the three 2" x 21" strips together to make one 5" x 21" rectangle. Press the seam allowances open.

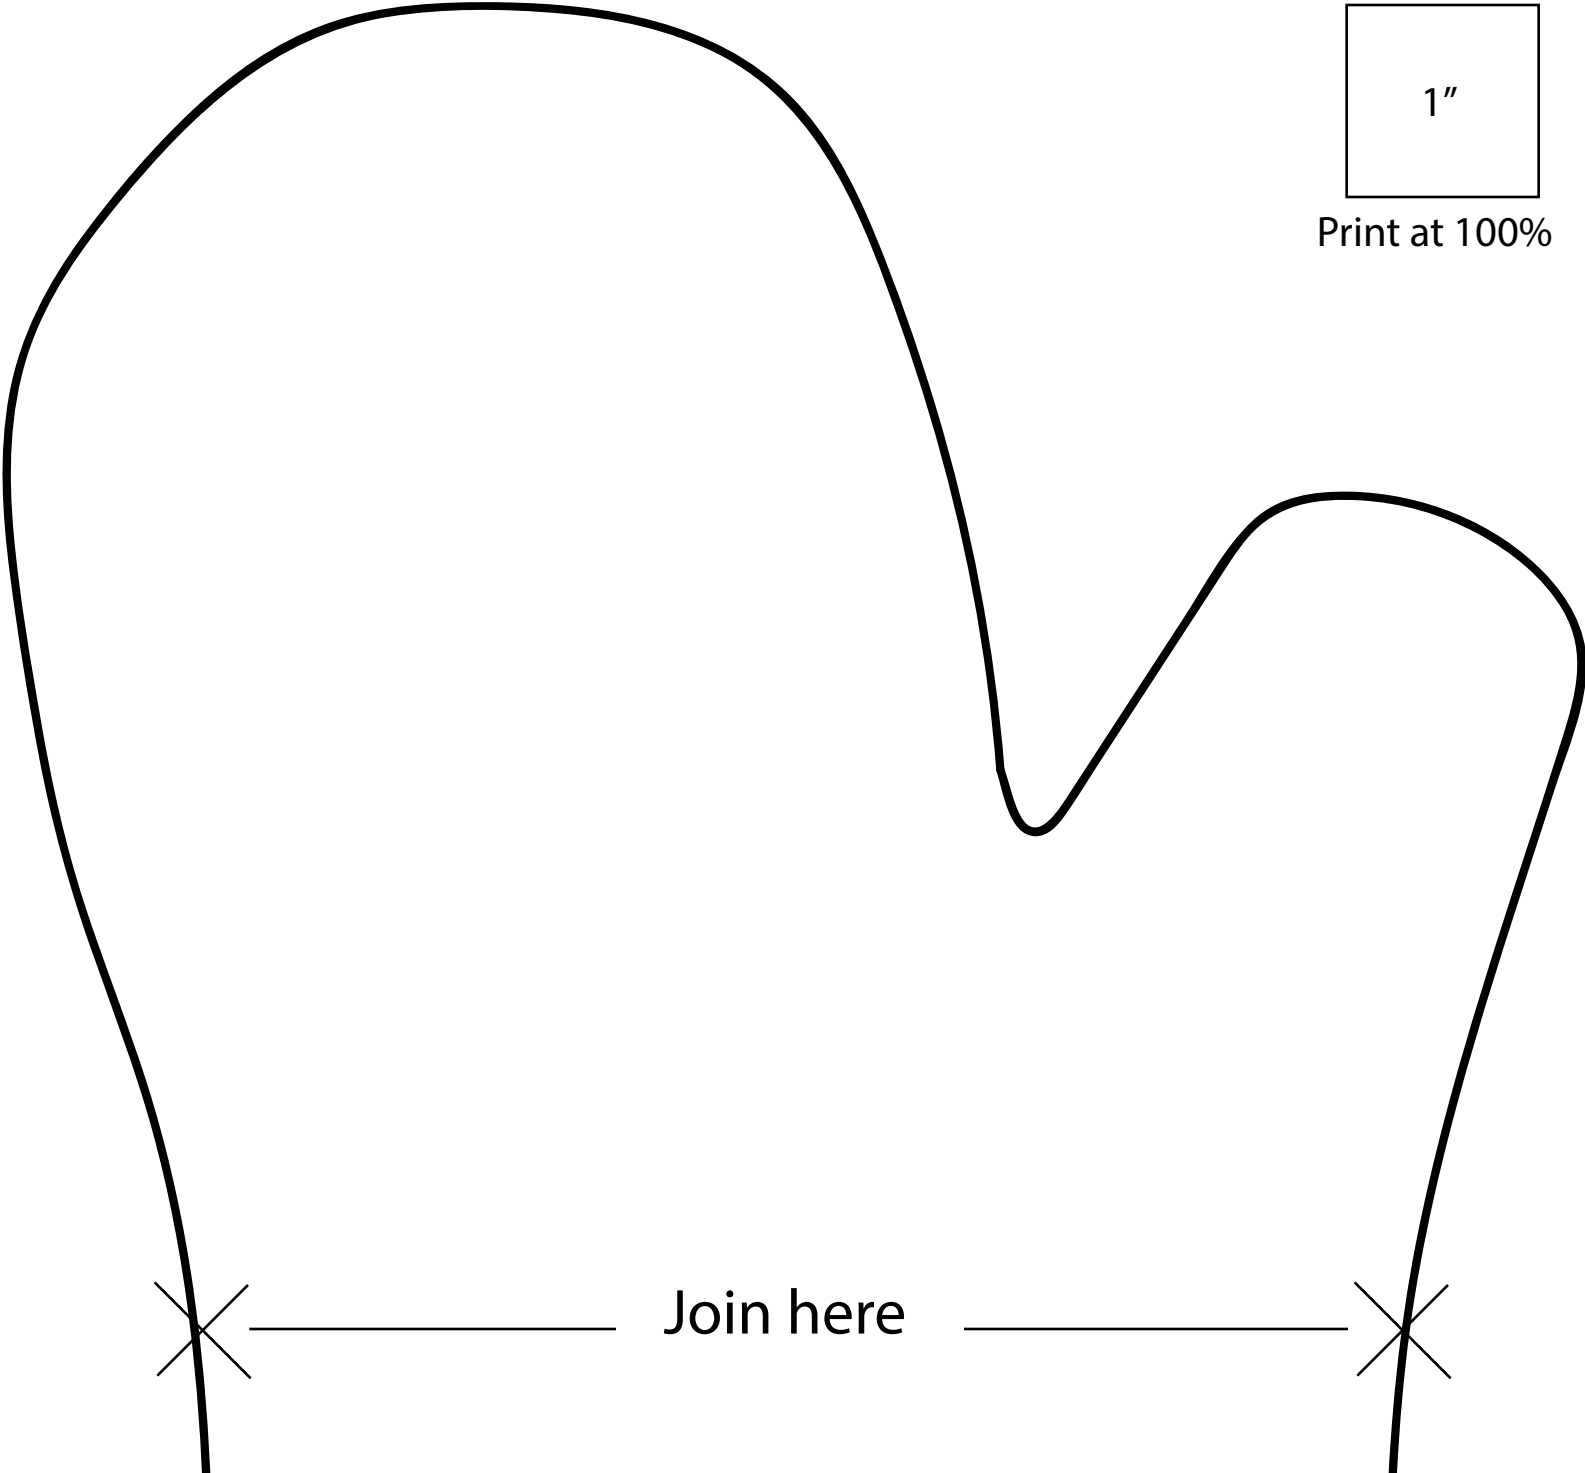

2 Measure the tea towel width and then trim the pieced rectangle so that it is ½" wider than the tea towel. Turn ¼" hem on all sides and press well.

3 Pin in place and then sew using a ⅛" seam allowance. Sew slowly to keep the stitches even and neat.
